SCHOOLOGY®

Schoology Enterprise:
The Digital Hub for Education

When you choose Schoology Enterprise, you're choosing more than a learning management system (LMS). It's the first LMS to provide students and educators with an easy-to-use hub for all aspects of education.

From course delivery and communication to high-level administration, Schoology Enterprise condenses it all into one platform, enabling educators to create and manage a true digital culture.

If you want an LMS that engages students on any device, increases collaboration and sharing among educators, and centralizes control of the learning environment, then Schoology Enterprise is it.

Why Should You Choose Schoology Enterprise?

ADMINISTRATIVE FEATURES

☑ **Systemwide Administration**
Control each aspect of your learning environment including, but not limited to, user permissions and privacy, learning objectives, grading scales, course settings, integrations, and content.

☑ **Seamless SIS Integration**
Save your staff time every day by automating data provisioning and transfers between your SIS and LMS.

☑ **Permission and Privacy Controls**
Increase the safety and control of the learning environment on any device, whether students are in class or at home, with role-based permission and privacy settings.

☑ **Premium API Access**
Minimize the time you and your educators spend managing numerous technologies by building integrations with your content providers and existing systems using Schoology's open API.

☑ **Advanced Analytics**
Improve administrative insight into how the platform is being used by individuals, courses, and the whole institution with visually dynamic analytics.

☑ **Educational App Management**
Increase support for educators with access to premium educational apps, and easily supervise how and where they are used from one central location.

CURRICULUM AND INSTRUCTIONAL MANAGEMENT

☑ **Mastery Learning Tools**
Give educators the tools they need for skills-based teaching and assessment in one solution, including Common Core State Standards alignments and student mastery tracking and reporting.

☑ **Native Document Grader**
Save educators time every day with inline grading, annotation, and commenting—both text and video—all wrapped into one easy-to-use tool.

☑ **Audio and Video Recording**
Improve student-teacher communication with a built-in audio and video recording feature that boosts student engagement and personalizes lessons in any blended or flipped learning model.

☑ **LTI, Common Cartridge, and SCORM Integration**
Save educators time and effort when building lessons and assessments in Schoology by leveraging your institution's existing content.

☑ **Centralized Curriculum Repository**
Centralize all native and third-party content—e.g., Google Docs, SCORM, Common Cartridge, and LTI—into one easy-to-use repository that simplifies curriculum design and sharing.

COMMUNICATION AND COLLABORATION

☑ **Instant Systemwide Communication**
Improve communication with the ability to message every student, educator, administrator, and parent at once, regardless of where they are or what device they're using.

☑ **Collaborative Group Management**
Create and manage collaborative groups to streamline content design, provide ongoing professional development, and encourage peer support in a true learning community.

TRAINING, SUPPORT, AND CUSTOMIZATION

☑ **Priority Support and Training**
Let dedicated support and training teams help keep your system running smoothly and make sure your staff is maximizing the value of the Schoology platform.

☑ **Increased Adoption with Fewer Training Hours**
Increase LMS adoption and reduce the need for training with a highly usable and engaging social interface that facilitates meaningful collaboration among peers.

☑ **Custom Branding and Domains**
Customize the Schoology platform with your institution's logo, color palette, and website URL.

☑ **Unlimited Storage**
Let Schoology support all your courses, content, and apps with secure, unlimited cloud storage.
